

TOP 10 TIPS **FROM YOUR** **MOUNT MENTORS**

1

Don't attend your online class laying in bed if you can help it

Sitting up at a desk will help you focus instead of relaxing, and doing too much work in bed can trick your mind into thinking it's a place for work rather than for rest!

2

Join your online class 5 minutes early each time

**Just in case you have technical difficulties!
Professors often make announcements at the start of class that you won't want to miss.**

3

Write all of your assignment deadlines onto a calendar

Add them a couple of days before the real deadline – that way you stay on top of things!

4

Be the first one to send a message in a breakout room!

People often wait for someone else to talk first, so get the conversation going right away!

5

**Download Zotero on your computer -
this will save you hours!**

**It is a referencing software where you can save
all the articles you're reading and make (and
change) references.**

6

Choose a set time each week to work on asynchronous classes

This way you won't end up behind by exam time!

7

Thinking hard burns lots of calories

Be sure to take breaks and have snacks – don't forget to bring some with you to campus too!

8

Change up your study spot frequently!

This makes studying less boring. Try changing rooms, sitting outside, coming on campus, or visiting a local coffee shop or library!

Just go to [MSVU.ca/Library](https://msvu.ca/Library)

The screenshot shows the top navigation bar of the MSVU & Novanet Libraries website. It includes a search bar with the placeholder text "Find articles, books, ebooks, theses, videos & more" and a "Search" button. Below the search bar are five icons representing different library services: Databases (cylinder icon), Journal Titles (paperclip icon), Advanced Search (magnifying glass icon), Streaming Video (play button icon), and Course Reserves (book icon). A yellow arrow points from the bottom right towards the Streaming Video icon.
