

Schedule at a Glance

	Tues. Oct. 15	Wed. Oct. 16	Thurs. Oct. 17	Fri. Oct. 18
8:00		continental breakfast 0800-0830	continental breakfast 0800-0930	continental breakfast 0800-0830
8:30		Plenary Lecture Ben Brinkmann Mayo Clinic	Plenary Lecture Margarita Jenkiewicz Harvard University	Plenary Lecture Björn Herrmann University of Toronto
9:00		Improving seizure forecasting with novel devices 0830-0930	CANCELLED 0830-0930	Auditory cortical plasticity in older adults: The hyperactivity phenomenon 0830-0930
9:30		Symposium 1 The utility of EEG tools in psychiatry - I Chair: Salvatore Campanella	Plenary Lecture Sophie Molholm Albert Einstein College of Medicine	Plenary Lecture Jeff Daskalakis University of California, San Diego
10:00		0930-1045	Probing neural unreliability in autism and Rett syndrome 0930-1030	Brain stimulation for treatment of refractory symptoms in psychiatric disorders 1030-1130
10:30		coffee provided 1045-1100	coffee provided 1030-1045	coffee provided 1030-1045
10:45		Symposium 2 The utility of EEG tools in psychiatry - II Chair: Salvatore Campanella	Symposium 3 Electrophysiological traits in depression Chair: Mehmet Kemal Arıkan	Symposium 5 EEG/MEG and Cognition in Children and Adolescents Chair: Jennifer Lepock
11:00		1100-1145	1045-1215	1045-1215
11:15				
12:15		buffet lunch provided (Main Lounge + ECNS Members Dining Room) 1215-1330	buffet lunch provided 1215-1245	buffet lunch provided 1215-1300
12:30	ECNS Board Meeting 1230-1500	Plenary Lecture Michael Kiang University of Toronto	Poster Session 1245-1415	Symposium 6 Computational Neuropsychiatry Chair: Nevzat Tarhan
13:00		N400 ERP: a window on cognition and prognosis in clinical high risk for schizophrenia 1330-1430	coffee provided 1400-1430	1300-1430
13:30		coffee provided 1430-1445		
13:45		Special Presentation Ronald Swatzyna, Lorriane Morrow	Plenary Lecture Greg Light University of California, San Diego	
14:00		Evidentiary Significance of Routine EEG in Refractory Cases: A Paradigm Shift in Psychiatry 1445-1545	EEG biomarkers in global CNS trials 1430-1530	
14:30	ECNS Presidential Lecture Derek Fisher	Symposium 4 Neuroimaging Markers of Drug Use, Dependence and Treatment Chair: Derek Fisher		
14:45	Society Awards 1645-1700	1530-1700		
15:00	Opening Lecture John Foxe Univ. of Rochester			
15:15	The Hunt for Translatable Cross-Species Electrophysiological Endophenotypes (Neuromarkers) in Rare Diseases of Neurodevelopment 1700-1800			
15:30	Reception (Main Lounge + Wedgwood Main Dining Room) 1800-2030	Society Dinner 1830-2100		
16:00				
16:15				
16:45				
17:00				
17:15				
18:00				
18:15				
19:00				
19:30				
20:00				
21:00				
22:00
